OFFICE OF PETITIONS  
A/C PATENTS

In re Application of  
Bish, Cantliffe, and Chandler  
Application No. 09/172,689  
Filed: 14 October, 1998  
Attorney Docket No. UF-206X

:  
: DECISION GRANTING STATUS  
: UNDER 37 CFR 1.47(a)  
:

This is in response to the petition under 37 CFR 1.47(a), filed on 6 May, 1999. The Office apologizes for the delay in responding to the present petition.

The petition is GRANTED.

Petitioner has shown that the non-signing inventor has refused to join in the filing of the above-identified application after having been presented with the application papers. Specifically, the statement of petitioners' attorney, David F. Saliwanchik establishes that the inventor was mailed a copy of the application papers but has failed to execute the declaration naming him as a joint inventor along with Daniel J. Cantliffe and Craig K. Chandler as joint inventors. Petitioners have also established that the non-signing joint inventor was sent two additional copies of the declaration, neither of which was properly executed.

The above-identified application and papers have been reviewed and found in compliance with 37 CFR 1.47(a). This application is hereby accorded Rule 1.47(a) status.

It is noted that the declaration does not properly state the non-signing inventor's address in that "Hill" is misspelled "Haile." A new oath or declaration properly reciting the non-signing inventor's address and signed by the two signing joint inventors on behalf of themselves and the non-signing inventor should be filed when required by the examiner.

As provided in Rule 1.47(a), this Office will forward notice of this application's filing to the non-signing inventor at the

address given in the in the petition, not the declaration.  
Notice of the filing of this application will also be published  
in the Official Gazette.

The application is being forwarded to Technology Center 1600 for  
further processing

Telephone inquiries concerning this matter may be directed to
